Contents of Volume XI

Number 1, Spring 1991/1992

1 **Guest Editorial**
J. A. Biesenberger, Polymer Processing Institute

FEATURES

3 **Controlling Crosslink Density of Coreactive Polymers in an Extruder Reactor**
J. Curry and P. Andersen, Werner & Pfleiderer Corporation

11 **Distributive Mixing in the Nonintermeshing Twin-Screw Extruder with a Newtonian Fluid**
D. Bigio and W. Baim, University of Maryland

19 **Melting Theory for Temperature-Dependent Fluids, Exact Analytical Solution for Power-Law Fluids**
C. Rauwendaal, Rauwendaal Extrusion Engineering, Inc.

27 **Tensor Failure Criteria for Composites: Properties and Comparison of the Ellipsoid Failure Surfaces with Experiments**
P. S. Theocaris, National Academy of Athens

41 **Structure Development in Powder Processing of Polyphenylene Sulfide**
J. P. Jog, A. Lodha, and V. M. Nadkarni, National Chemical Laboratory, India

53 **State of the Art of Injection Molding of High-Performance Ceramics**
T. Sakai, The Japan Steel Works, Ltd.

DEPARTMENTS

69 **Instrumentation News: Measuring Thermal Conductivity and Thermal Diffusivity of Polymeric Solids and Melts**
Victor Tan, Polymer Processing Institute

73 **News of the Polymer Processing Institute**

Number 2, Summer 1991/1992

FEATURES

77 **Postmolding and Load-Induced Deformation Analysis of Plastic Parts in the Injection Molding Process**
N. Santhanam and K. K. Wang, Cornell University, H. H. Chiang and K. Himasekhar, AC Technology, and P. Tuschak, Du Pont Company

91 **Extrusion of Self-Reinforced Polyethylene**
B. Pornnimit and G. W. Ehrenstein, University Erlangen-Nürnberg

99 **Report on the State of the Art: Reactive Processing Using Twin-Screw Extruders**
T. Sakai, Japan Steel Works METR Center

109 **A Knowledge-Based Design Approach for Injection Molding of Plastic Balls**
A. A. Tseng, B. Arinze, and J. D. Kaplan, Drexel University

121 **Parameters Affecting Process Efficiency of Peroxide-Initiated Controlled Degradation of Polypropylene**
S. H. Ryu, C. G. Gogos, and M. Xanthos, Stevens Institute of Technology

133 **Initiation of a Solid-State Extrusion of a Cross-Linked Silicone Rubber**
A. Cohen and A. F. Burmester, The Dow Chemical Company

141 **Metal Injection Molding: Freedom in Design for Sintered Metal Components**
R. Bielzer and W. Michaeli, Institut fur Kunststoffverarbeitung

DEPARTMENTS

147 **Instrumentation News: Measuring Polymer Melt Viscosities at High Pressures: The Hydrostatic Pressure Rheometer**
R. Staats-Westover, Polymer Processing Institute

153 **News of the Polymer Processing Institute**

Number 3, Fall 1992

FEATURES

159 **Experimental Analysis of the Thermoplastic Film Embossing Process**
A. Haber and M. R. Kamal, McGill University

181 **Computer Prediction of Cycle Times During Rotational Molding of Plastics**
P. J. Nugent, R. J. Crawford, and L. Xu, The Queen's University of Belfast

193 **Thermoplastic Polymer Formulations: An Approach through Experimental Design**
J. W. Sell and S. S. Lepeniotis, Hoechst Celanese Corporation

203 **Compression Molding Using a Generalized Eulerian–Lagrangian Formulation with Automatic Remeshing**
A. Ahmed and A. N. Alexandrou, Worcester Polytechnic Institute

213 **Thermoplastic Epoxies from *n*-Alkylamines**
J.-C. Huang and F. Gu, University of Massachusetts

223 **Fundamentals of Polymer Compounding: The Phase-Inversion Mechanism During Mixing of Polymer Blends**
C.-K. Shih, Du Pont CRD Science and Engineering Laboratory

DEPARTMENTS

227 **News of the Polymer Processing Institute**
233 **New Books on Polymer Technology**

Number 4, Winter 1992

Topical Issue
with Papers Presented at the First International Conference on "Advances in Additives and Modifiers for Polymer Blends"
February 1992, Miami Beach, Florida

235 **Editor's Note**
M. Xanthos, Polymer Processing Institute

FEATURES

237 **An Overview of Additives and Modifiers for Polymer Blends: Facts, Deductions, and Uncertainties**
L. Mascia, University of Technology, Loughborough, and M. Xanthos, Polymer Processing Institute

249 **Reactive Polymers for Blend Compatibilization**
N. C. Liu and W. E. Baker, Queen's University

263 **Compatibilization and Toughening of PPE–PP Blends with Hydrogenated, Styrene–Diene Block Copolymers**
M. K. Akkapeddi and B. VanBuskirk, Allied-Signal, Inc.

277 **Free-Radical Retrograde-Precipitation Polymerization Process**
G. T. Caneba, Michigan Technological University

287 **Practical Aspects of Reactive Compounding in a Continuous Kneader**
S. Jakopin, Advanced Polymer Compounding

295 **Peroxide Modified Polyolefin Blends—Part II: Effects on LDPE/PP Blends with Polymer Components of Dissimilar Initial Viscosities**
D. W. Yu, M. Xanthos, and C. G. Gogos, Stevens Institute of Technology

SPECIAL REPORT

305 **Advances in Injection Molding of Fiber-Reinforced Thermoplastics During 1991—Part I: Materials and Processing**
P. G. Kelleher, New Jersey Polymer Extension Center

DEPARTMENTS

315 **News of the Polymer Processing Institute**
323 **Volume Contents**
327 **Author Index**
